

ImPACT Trained Athletic Trainer (ITAT)

Get the know-how and skills you need to build a concussion protocol at your school or clinic while earning CE credits.

Why become an ITAT?

ITATs gain clinical skills in the most recent advances in concussion care.

PEER RECOGNITION:

Stay ahead of the curve with intensive concussion care training

7.25 CEUs:

Receive continuing education credits for all the courses in the program

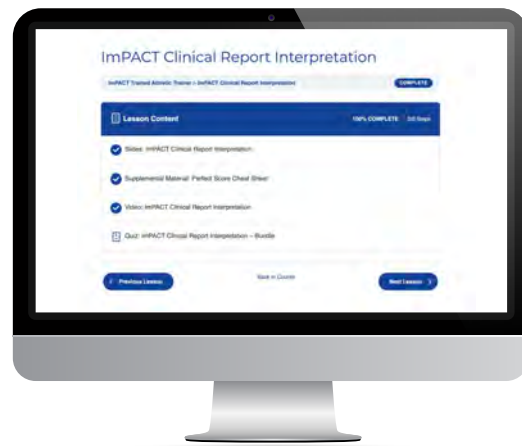

CONTINUITY OF CARE:

Network with other multidisciplinary team members

How does the ITAT program work?

To become an ITAT, you're required to complete 6 courses (totaling 7.25 hours of content) and complete a quiz for each. Each year after your initial one, you're required to complete a continuing education course.

Apply for an NPI so you can get reimbursed for your concussion care services.
