Should You Become an ITPT?

If you're a licensed physical therapist looking to expand your position in the rapidly-growing area of concussion rehabilitation and management, the ImPACT Trained Physical Therapist (ITPT) program offers recognized, streamlined and affordable ways to:

Learn Best Practices in Concussion Rehabilitation

Your ITPT training will include valuable education on core concussion management processes including Concussion Clinical Trajectories, Vestibular Therapy, Vision Therapy, Cervical Spine Rehabilitation, and Return to Learn and Return to Activity processes.

Offer Industry-Leading Concussion Rehabilitation to Your Patients

ImPACT Applications provides training that has been medically accepted as state-of-the-art best practices. As our product suite grows and as research drives new innovations, your patients benefit from the latest advancements in concussion management research and clinical methodologies.

Grow Your Practice

Credentialed ImPACT Consultants (physicians, physician assistants, psychologists, and nurse practitioners) frequently seek ITPTs to partner with in post-injury care. Tap into networking opportunities to grow your business as part of a multi-disciplinary concussion management team.

Gain a Competitive Edge

Increase your exposure through a listing on the ImPACT Applications website. Stay current with relevant, evidence-based training delivered by pioneers in the field.
