Webinar Replay: Concussion Care Beyond Athletics

1. Course Description

Concussions aren't always the result of sports injuries. There are a number of other mechanisms of injury (MOI) including motor vehicle accidents, workplace injuries, slips and falls, or mundane accidents. Learn how to care for these underserved populations by educating the industry on concussion signs and symptoms, marketing your services to the community, and utilizing telemedicine to reach more patients.

2. Speaker

Melissa N. Womble, Ph.D.

3. Contact Hours

1

4. Cost

\$39

5. Registration Link

ConcussionCareTraining.com

6. Target Audience

Physicians, Nurse Practitioners, Physician Assistants, Psychologists, Athletic Trainers, Physical Therapists, Occupational Therapists

7. Location/Format

Internet Activity Enduring Material

8. Learning Objectives

(Achievement assessed through post-course evaluation/quiz)

At the end of this course, the learner will be able to:

- Describe ways you may be able to work with referral sources to ensure concussed individuals can access your care
- Describe ways to tailor treatment plans to patients in non-athletic populations
- Describe concussion diagnosis and treatment considerations for motor vehicle and industrial accident patients

Summary of Evidence: Not all concussions are from sports-related causes. Similar to sports-related concussions, non-athletic concussions require tailored treatment to return the patient to their work, school, and everyday activities. It's also important to consider how the mechanism of injury implicates the concussion presentation.

9. Educational Level

Beginner / Introductory / Essential

10. Course Outline

- Overview: Non-athletic concussions
- Marketing your services / community outreach
- Concussion Treatment with Non-athletes
- Return to Work accommodations
- MVA and Industrial accidents
- Anxiety and concussions
- Case studies
- Q&A

Complaint Policy

When a participant, either verbally or in written format, files a grievance and expects action on the complaint, the following actions will be taken.

If the grievance concerns a speaker, the content presented by the speaker, or the style of presentation, the individual filing the grievance will be asked to put his/her comments in written format. The planning committee will then pass on the comments to the speaker, assuring confidentiality.

If the grievance concerns a workshop, its content, level of presentation, or the facilities in which the workshop was offered, the planning committee will mediate and will be the final arbitrators. If the participant requests action, the final arbitrator will follow the standard cancellation and refund policies.

If the grievance requires a resolution, a member of the planning committee will take necessary action.

Please contact ImPACT Applications at training@impacttest.com, (877) 646-7991 ext. 908, or +1 (412) 567-8400 to submit a complaint, or if you have additional questions.

Commercial Support

Currently, ImPACT Applications does not accept commercial support for any continuing education programs.

Conflict of Interest Policy

Available upon request.

Presenter, Melissa Womble, disclosed a relevant financial relationship in the form of a research contract with Brainscope in which she is the principal investigator. This relationship has been mitigated.

Commercial Bias

The intent of this course is to promote improvements in the management of concussion. Attendees are encouraged to inform the course planning committee through the course evaluation if any commercial bias is detected.

Melissa N. Womble, Ph.D.

Director
Inova Sports Medicine Concussion Program

Dr. Melissa Womble is a fellowship-trained neuropsychologist with specialization in sport concussion management. She currently serves as Director of the Inova Sports Medicine Concussion Program with offices in Fairfax and Gainesville, Virginia. Dr. Womble joined Inova Medical Group in August 2016 after completing a neuropsychology post-doctoral fellowship within the University of Pittsburgh Medical Center's Sports Medicine Concussion Program.

She completed a pre-doctoral internship at Henry Ford Medical Center in Detroit, MI, where she continued to develop her interest in traumatic brain injuries and furthered previous neuropsychology training before moving on to her fellowship experience in Pittsburgh. Dr. Womble has presented at national conferences and published in numerous peer-reviewed journals.
